1

The keyboard arm mounts to the underside of the intended worksurface, using the four (4) mounting screws provided (Figure A).

Figure A

2

It is recommended that the front of the arm mounting plate be approximately two (2) inches from the front edge of the worksurface. Exact location of arm is user's choice. However, when locating the arm mounting plate, take care that underside brackets, latches, supports, panels or pedestals will not be interfered with (Figure B) (Figure C).

Figure B

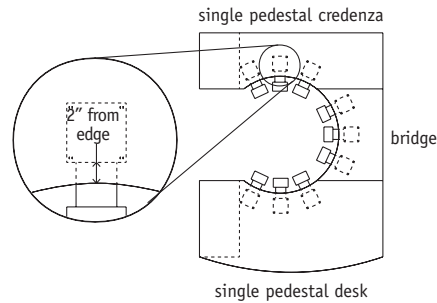

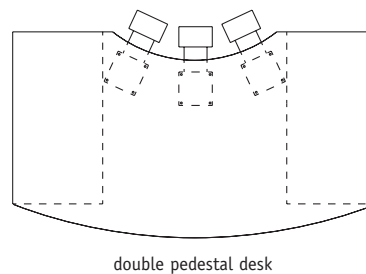

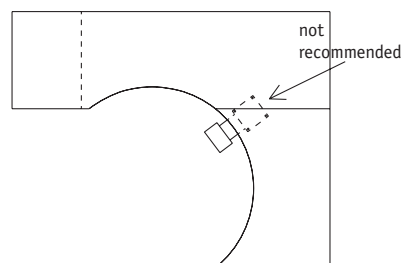

Figure C

3

It is NOT recommended to span two components with the mounting plate (Figure D).

Figure D

Proper product installation, in accordance with these instructions, is the responsibility of the installing agent. If you have any questions concerning these instructions, please call National Customer Service.
