

Assembly Instruction

Casegoods

Florish Bullet Unit without Modesty Panel

Note: It is recommended that two or more people be used in the assembly of this unit.

Note: This instruction explains basic assembly of a bullet/keyhole unit with modesty panel.

1

Place the top worksurface face down on a smooth, hard surface. Take care to not mar the surface. Position cylinder leg mounting plate over the pre-bored holes in the worksurface. Attach cylinder leg using the four (4) #10 x 1" panhead screws provided (Figure A).

Figure A

2

Position end panel 1/4" to the back edge of the top worksurface and center along its depth.

Note: Make sure the side of the end panel with the top groove faces to the OUTSIDE of the unit. Attach panel using four (4) L-brackets and 16 #8 x 5/8" panhead screws provided in the approximate locations shown (Figure B).

Figure B

3

Attach Four (4) L-brackets to support panel, using eight (8) #8 x 5/8" panhead screws at locations shown in (Figure C).

Figure C
