

## Made With Care

Furniture Solutions for Healthcare

NATIONAL

Furniture with Personality®

National Office Furniture promotes personality, comfort and sustainability with a range of furniture solutions for healthcare environments.

Patient Care

Administrative Spaces

Waiting and Registration

Private Offices

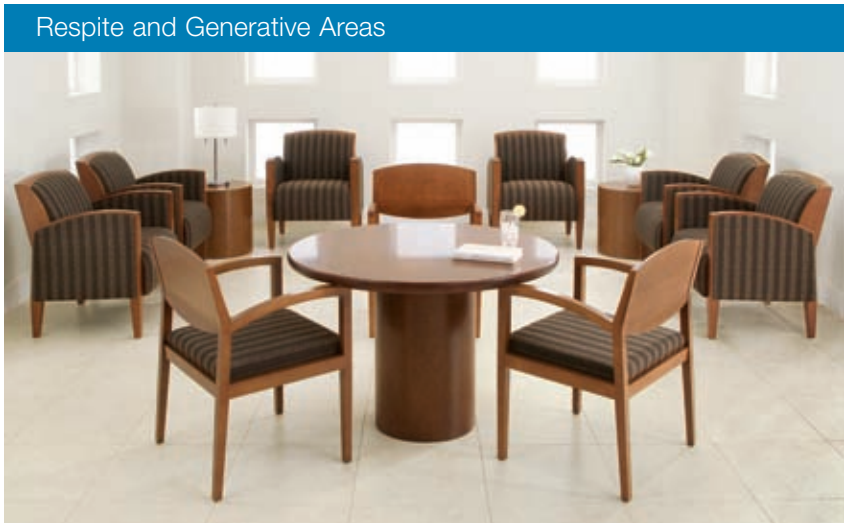

We see our legacy as more than quality furniture.

We are committed to providing quality products that will improve indoor air quality, increase the use of sustainable materials and reduce impacts to climate change. At National, environmental responsibility has been and always will be a priority. From our corporate recycling center and the ISO 14001 registration of our facilities, to third party certifications, we embrace sustainability in all areas. Turn to us for products that are certified to the ANSI/BIFMA e3 sustainability standard with the level™ label and for FSC® certified wood option. These differentiators can assist clients with achieving a LEED® Green Building Rating. Indoor air quality is important for protecting the health of patients and many of our products are certified to the Indoor Advantage™ Gold program by SCS which assures they meet the stringent emissions criteria of California 01350 Special Environmental Requirements.

**Learn more about our sustainability journey at [www.NationalOfficeFurniture.com/Sustainability](http://www.NationalOfficeFurniture.com/Sustainability).**

**Review specific certification and LEED® information at [NationalOfficeFurniture.ecoScorecard.com](http://NationalOfficeFurniture.ecoScorecard.com).**

At National Office Furniture, we inspire ideas in furnishings that fit every personality. The same holds true for any caring environment. We stand by the same values that healthcare professionals consider the core of caring for people...trustworthy, knowledgeable and friendly. Throughout the healthcare industry, National is a trusted partner in delivering well-crafted, stylish furnishings that are durable, sustainable and affordable. Featuring a broad product line filled with contemporary, traditional and transitional styles, National brings comfort and productivity to any facility with beautiful, yet functional desks, storage, conferencing, filing, wall rails and an array of seating options including bariatric, modular lounge, tandem and intensive use options. Our products meet strict indoor air requirements and carry certifications that can help earn LEED points as well as featuring design elements such as wall saver legs and clean out features that keep facilities clean and inviting. National cares about providing smart furniture solutions so you can care for more important things!

Because choosing sustainable furnishings should be easy.

### Welcoming environments.

Whether it's the space when you first walk in, or generative spaces where people congregate to heal, every environment should be welcoming to the comfort needs of patients, visitors and employees. The warmth of wood or the cool, clean look of metal mixed with the depth of textured fabrics creates an inviting space. Also welcoming to visitors are recognizable features that fit individual needs such as bariatric seating or reception desks that meet ADA guidelines. What's more, performance materials and contrasting fabric options offer a customized feel and the versatility to keep up with the ever-changing healthcare industry. Our modular casegoods, wall rail solution and seating products are designed to keep facility maintenance low and flexibility high. Plus, our wood finishes feature Antimicrobial Silver Ion Protection along with our wood seating featuring a bleach solution safe washable finish for added durability and product performance. These small details demonstrate caring at a higher level.

## Behind the scenes.

We know the hustle and bustle continues on behind the scenes with consultations, filing, record keeping and carrying out other necessary responsibilities to ensure things run smoothly. Beyond being visually pleasing, National furnishings encourage comfortable productivity through products that have been performance tested and made to withstand the rigors of the healthcare industry. Our proprietary UV finish, IntegraClear™, brings important durability and critical indoor air quality attributes to your healing environment which can contribute points toward LEED® certification. Ergonomic seating selections designed for multi-shift, 24-hour intensive use provide comfort in completing daily tasks.

### Sharing stories... sharing ideas.

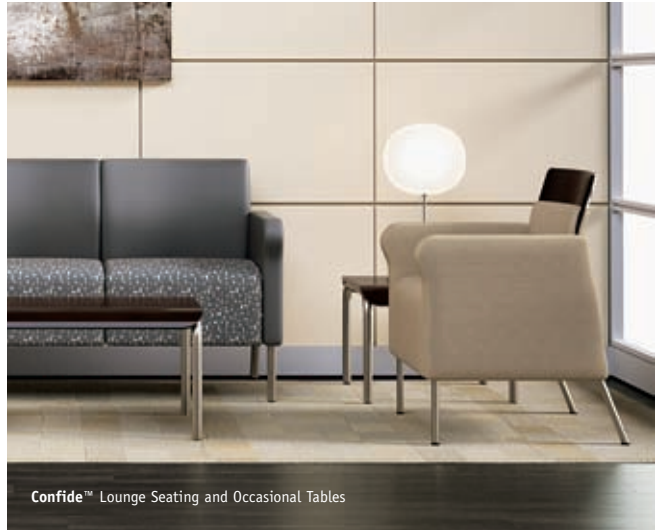

When it's time to sit down and talk business or pleasure, grab a quick lunch, or simply relax, do it in style and comfort. National has a range of table and seating solutions ideal for conference and dining rooms, cafés, learning areas and other high-traffic gathering locations. Table base options include fixed and adjustable height to accommodate individuals with varied needs. With a diverse product line full of rich hardwood veneers and durable laminates and thermofoils, along with an assortment of executive, task, side and stackable chairs, we can help you achieve the level of formality and functionality you desire. Choose from an array of antimicrobial and stain resistant upholstery choices such as Crypton® Super Fabrics, as well as finishes that can be cleaned with bleach-based solutions. Rest assured our products will stand up to the test of time.

### Spaces that heal body, mind and spirit.

Healing often spans well beyond the patient room. Patients, loved ones and friends congregate towards quiet spaces for healing of the body, mind and spirit through interaction in a relaxed, comfortable setting. Maybe a private or semi-private room, a long hallway, café corner or an atrium nook with appealing, comfortable furnishings that promote conversation and reprieve from the patient room. National provides a mix of soft seating as well as upholstered wood and metal seating to complement generative spaces with sustainable, durable furniture where patients and loved ones can focus on each other and getting better.
