

Our Statement on Sustainability

At National Office Furniture, we do green because it's the right thing to do. We aim to create lasting stakeholder value through responsible growth and deep commitment to the well-being of future generations. We cherish the earth's natural resources and hold sustainability and environmental protection as our key priorities.

There are many shades of green.

The environment is our home, and we are committed to protecting and enhancing our world. We see our legacy as more than quality furniture. It is also a reverence for nature, which inspires our resolve to protect, nurture and preserve nature's gifts.

As our company fulfills its responsibilities, six commitments help us focus our energies toward the greatest good:

- Product Stewardship
- Environmental Preservation
- Green Building Development
- Regulatory Compliance
- Social Accountability
- Economic Responsibility

The answers aren't all black and white; there are many shades of green. But we know that any challenge can be solved when people work together.
