

MARCELO MODULAR LOUNGE DESIGN PERSPECTIVE

Designed to offer a comfortable haven with urban style, Marcelo's flowing form embraces guests and creates the perfect setting for lounging or meeting. The Italian father and son team of Orlandini Design set out to create a unique lounge series that was precisely tailored, yet extremely approachable.

With contours that deliver exceptional comfort and a distinctive shape, Marcelo makes an impact in any environment, from relaxed settings to formal spaces. The curvaceous back design cradles and supports, while the arm extends fully to encompass guests. Marcelo's free-flowing form allows for creation of organic shapes, serpentine configurations, and straight solutions.

"Marcelo is not just a sofa, it's a mood. Its smooth, rounded surfaces, just like the stones of a river, are naturally fascinating and they become an icon of firmness and inner well-being. Its pure and minimal design gives inner peace and makes workplaces more beautiful and friendly."
