

TAG SEATING COLLECTION MARKET PERSPECTIVE

Tag's extreme flexibility and broad statement of line make it a go-to solution for a variety of needs. Amplify any space by adding Tag's worksurface, counter, or bar height solutions, or utilize its bariatric solutions to meet specialized seating needs. Tag also offers tables that can be used as stand-alone pieces or gang them to seating to create configurations. Tag easily outfits spaces with multiple requirements because of its breadth of line and wide range of options.

Available with upholstered or wood backs in varied shapes, arm and armless, and contrasting fabric, Tag features clean lines and a simple aesthetic. Through our Pizazz Product Modifications program, logos can be added to Tag through custom laser engraving on the wood back or embroidery options on the upholstered back. Tag is also available with a dipped back option that creates a two-toned masterpiece, highlighting the beauty of wood with an accent of color.
