**Notes:** This assembly instruction will cover all configurations of the Alloy Fixed Height End of Run and Mid Support Panels.

1. Insert the provided glides into the bottom of the panel.

2. Secure the provided L brackets to the panel using #8 x 1 wood screws as shown in Figure A.

3. Attach the end of the run panel to the Alloy Fixed Height Unit as shown in Figure B. Mid support panels must be attached on each side of the panel as shown in Figure C. Use the remaining wood screws to secure the panel to the underside of the worksurface.

4. Adjust the glides and verify the panel is vertically plumb.
