Note: This assembly instruction will cover all configurations of the Alloy Fixed Height End of Run Panels.

1. Insert the provided glides into the bottom of the panel.

2. Secure the provided L brackets to the panel using #8 x 1 wood screws as shown in Figure A.

3. Attach the end of the run panel to the Alloy Fixed Height Unit as shown in Figure B. Use the remaining wood screws to secure the panel to the underside of the worksurface.

4. Adjust the glides and verify the panel is vertically plumb.
